Introduction

Greetings of the day!!!!

We are glad to announce that our School - Isaac Newton Global School has successfully completed 6yrs under the support and Guidance of THE BASSEIN EDUCATION SOCIETY, who has devoted approximately 88 years in the field of Education. After a period of 6 years the vertical and horizontal growth of the school was very vivid as the school witnessed an extension of grade 6 and increased divisions. This in itself proves the achievement of the school.

Our students of grades 1 to 6 walked into the school on 7th April 2019, with new energy and enthusiasm to commence the new academic year filled with new dreams and surprises. The students were warmly welcomed at the school assembly by the entire team.

The most significant change in 2019 – 20, was that a planned ALMANAC was provided to the students to make the Teaching – learning process effective. To plan all these activities all the stakeholders were involved and we are thankful to them to spare their valuable time and to provide us with their feedbacks, reviews and inputs so that our children get an environment which helps in their overall development. The habits of work and the love of learning that emerges in such an environment where we actively engage the child's interest, self-discipline, concentration, self-confidence and motivation will enable the child to undertake whatever it is they need to do. In school and into adulthood, education is about developing good 'Habits of a lifetime'.

The increase and stability in students' number last year led to a sound financial foundation for current year. We thank the Trust members and School Managing Committee for granting approval to fund initiatives to improve the school environment and also to facilitate an

improved learning experience for our students. Some of these were the purchase of new furniture, teaching aids, and purchase of laptops for each class teacher. Additions and upgrade were made to existing ICT devices for use by part time staff and students.

In house training were given to the teachers such as Language Coordinator, the Curriculum Coordinator, the Digital Technologies Coordinator and the Inclusive Education Consultants, they used the opportunity for both formal and informal professional development and facilitated collaboration between staff members. The in-house sessions afforded the double advantages of being able to tailor the sessions to our particular needs, while at the same time keeping our costs low. Staff found this to be very valuable.

We have in the past relied on the goodwill, and availability for parents and staff to transport our children to sporting venues and other field trips. Our curriculum pays great attention on the academic achievements of students, while these are of course very important we must not lose sight of what sustains the academic work of students, of those intangible unmeasurable qualities that can be nurtured but not taught. Our teachers work closely with our children, observing their work and offering the lessons and opportunities that the child needs to progress their understanding. The overall results do not tell the teachers more than they already have observed in individual children and are already working to address. However, we are pleased that our students performed to the best of their ability with the vast majority being above the benchmark.

School Vision Statement

Isaac Newton Global School is a tribute to the English natural philosopher, generally regarded as the most original and influential theorist in the history of science: Sir Isaac Newton.

Our Vision:

“Our vision is to establish a school that nurtures a learning culture which believes in and breathes change through education”

Infinite possibilities can be created through change in education. Positive development of children is possible through discovery of self, of the life cycle of a honey bee, of the law of motion or the speed and precision with which communication system are established.

Learning for children is a discovery of the self and a yearning to share that discovery with peers, teachers and parents. Our aspiration as a school is to provide much more than mere syllabi and examination oriented education. It is to help children become responsible citizens of the global community.

Established in 2014, Isaac Newton Global School has been preparing our children for the future. We focus on supporting all students to reach their full potential academically, socially and emotionally. Our aspiration as a school is to provide much more than mere syllabi and examination oriented education. It is to help children become happy and responsible citizens of the global community.

With a clear vision and purpose, we focus on excellence in teaching and learning. Through our motto, ‘Explore, Endeavour, Empower’, we aim to provide the best possible education for each student,

ensuring they develop a broad range of skills to enable them to take responsibility for their own learning, and to adapt to a changing world.

To ensure that the students develop their academic skills, our school has taken different initiatives throughout the year.

Staff Development Programmes

Professional on-going learning of the staff is a key for quality teaching-learning at Isaac as it is the core of all that we do. This has ensured the development of skills, knowledge and understanding of the curriculum and current trends in teaching and learning. The staff participated in a variety of professional learning opportunities. Before the new academic year commenced, the entire staff had a day's session on "Classroom Management and Innovative methods of teaching" by Mr. Sunil. Many staff members are undergoing two years-long training the teachers also attended a two-day workshop on "Improving Productivity at work place" both arranged by the management.

School Assembly

Education for Growth of the Inner Spirit

Daily Morning Prayer and assembly is one of several important and good practices we have at INGS. Each class prepares well for it with a specific theme with motivational thoughts/talks and news. School assembly is the most essential aspect of a school's curriculum. It helps to nurture a positive school ethos that stresses on self awareness and care for self. It powerfully nurtures the development of intrapersonal intelligence

Academic Excellence and Intellectual Enhancement

True Education means training in excellence, which makes a person passionately, desire to be a perfect citizen. We believe that learning takes place all the time and everywhere. The guided library period every week awakens in them a taste to value books and creates a desire to read good books, and not just depend on the internet for their assignments. “**Read A Book Week**” was held in the school to develop interest in reading among the students at the same time the students had to write an analysis of the book which enhanced their writing skills as well.

Every exposure/interaction is an opportunity to learn, only if we are interested in improving and exploring. Realizing this, we provide ample opportunities to our students for **outdoor learning**. The students were taken to **Rohini Hill Resort for a picnic cum excursion**. It was a great learning experience for all as the children witnessed cultivation of various crops, **pisciculture, vermiculture, biogas techniques** and also enjoyed the bullock cart ride. A **pottery session** too was organized which was the attraction of the day.

Investiture Ceremony

The **Investiture Ceremony** is a solemn occasion where all the young students are prepared to don the mantle of leadership and discharge the responsibilities entrusted upon them by the school. **Isaac Newton Global School**, acknowledged the budding young leaders and reposed the trust in them. Investiture Ceremony is not just about providing titles, but about conferring responsibilities to the students, to take charge of the school and take it to the height they desire with their leadership and decision making skills, communication and teamwork.

The investiture ceremony, for the academic year 2019-20 was held on **27th April 2019** in the school premises. On this occasion the Student Council was conferred with responsibility to realize the tasks assigned to them as they take the vision of the school and the house visions forward through careful planning and execution. The students in the Student Council were nominated and selected based on their mettle and contributions to various aspects of school life. The selected students are honoured with their respective badges such as Head Girl, Head Boy, Sport Captain and the student council members take an oath to faithfully work for the school.

International Yoga Day

The International Yoga day celebration at **Isaac Newton Global School** commenced with the chanting of shlokas celebrating the importance of consonance between the mind and body. Yoga is a discipline that leads to the communion of mind and body, imparting physical flexibility and mental tenacity. Our school sports teacher briefed about the importance of Yoga in day to day life. This was followed by the display of various Yoga Asanas by the staff, under the guidance of the physical instructors.

Experiential Learning through Club Activities

At INGS, we believe that extra-curricular activities greatly enrich the school experience of our students. The students can gain skills that may develop into lifelong leisure pursuits. We also provide a vast range of **additional programs** to support the students' academic, social, cultural and physical development. These include **Karate, Dance, Music and Yoga** which are conducted by expert coaches.

Hobbies helps in enriching our life and gives us a different perspective on things. Whatever hobby we choose, we will definitely be exposed to new ideas. Hobbies help us to grow in various ways, including exposing to new opinions and to new ways to look at life. For the holistic development of our students, we at **INGS**, conduct **Hobby and Sports activities on Friday and Saturday** for our students, which help our students to raise their self esteem, to learn time management, prioritize the things and release their stress.

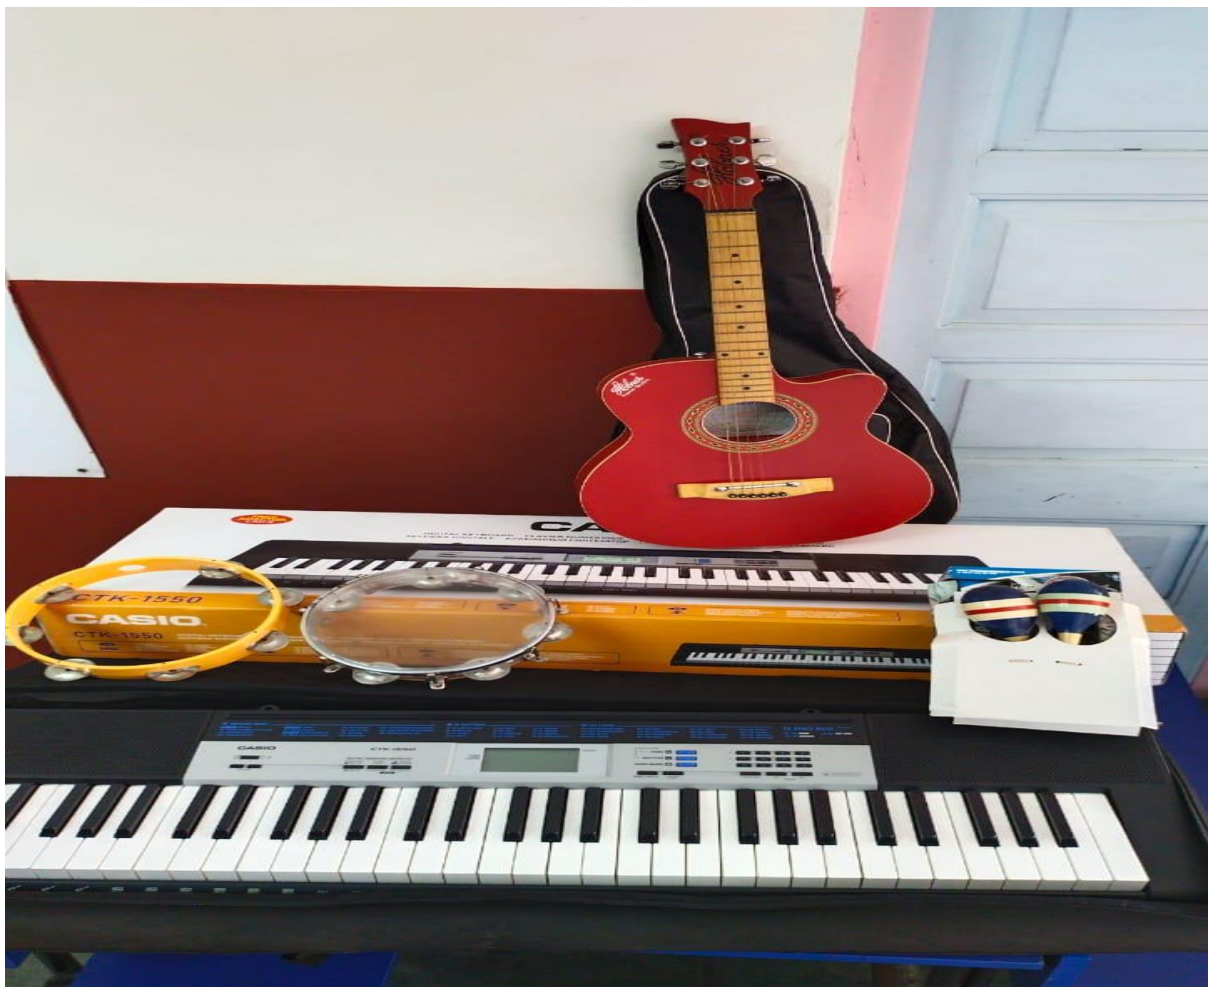

1. Dance - Dance can be a way to stay fit for people of all ages, shapes and sizes. It keeps both the body and the brain active. It offers a way to improve strength and flexibility, which helps keep muscles and joints healthy. It learn about your body , improving posture and balance.

2. Karate – Martial Arts as an educational system are of paramount importance for everybody especially for kids. Karate benefits kids at every aspect of their lives – physical, mental, spiritual and emotional. Developing balance, coordination, focus, respect, discipline, self defence is well known features of this practice.

3. Music - Music can be very engaging in the classroom and is a great tool for memorization. Even music can be used to make teaching learning process more interesting. Like if teachers use song to teach the multiplication tables, kids would retain that information much quicker. Music fuels the mind and thus fuels our creativity. A Creative mind has the ability to make discoveries and create innovations. Music teaches us self discipline and time management skills that you cannot get anywhere else. When students study an instrument on a regular basis you work on concrete ideas and take small steps to achieve larger goals. This way of thinking organizes the wiring in your brain to start looking at Learning in a new light. In raising children, Music education can be used to keep kids focused.

4. Cricket - In common with most sports there are health benefits for playing cricket. It can improve endurance, stamina, physical fitness and hand eye - coordination. Cricket also involves short bursts of sprinting and throwing which is good for cardio-vascular health. The game is good for developing team skills. It can help with social interaction and helps you to work with other people.

5. Football - Playing football provides numerous types of advantages, such as increased aerobic and anaerobic fitness, improved fitness skills and even psycho-social benefits. Football also suffices as a form of exercise that meets the Centers for Disease Control and Prevention's minimum recommended exercise (150 minutes per week). Football can benefit all ages, provided the participant's doctor approves, and his developmental stage, maturity and physical size suits a contact sport.

Competitions and activities

Competitions and activities organized offer opportunities for students **to learn the values of teamwork**, individual and group responsibility and a sense of culture and community. Extracurricular activities provided a channel for reinforcing the lessons learned in the classroom in a **real-world context**, and are thus considered an integral part of a well-rounded education. Realizing this, opportunities were provided to students to take part in a number of activities and competitions-both intra and inter school. Various competitions like English / Hindi / Marathi Elocutions and Story Telling, Debate, Quiz, Poster Making, Folk Dance, Traditional Day, Folk Song and many more were a part of the school curriculum.

Teacher's Day

Love and respect for their teachers and mentors was highlighted by our students at a programme organized creatively by the students with the help of the PTA members on 5th September – the entire staff had a great day as the students had organized for cultural program for the teachers. After the students had dispersed, the Management had arranged for lunch. It was an enjoyable day.

Children's Day

On one hand while the children were ready to show their gratitude through a cultural event, the Staff put up an excellent show of their talents and entertained the children on the occasion of Children's day which was celebrated on 14th November. A special assembly was organised with a lot of fun activities and games. As a token of appreciation each child was presented a customized card by their teacher.

Festival celebrations

INGS has always created an **open and loving atmosphere** within and around its campus, where all are respected and loved. In this era of doubt and communal disharmony, we help our students to live in love and harmony respecting one another's faith and beliefs by celebrating the major religious festivals like **Onam, Diwali and Christmas** with meaningful prayer services and programmes, thereby fostering unity and tolerance

Diwali Celebrations

During the special assembly, the **significance of Diwali** was presented to the students. Later a **Rangoli making competition** was held in the school. The students of all the grades made beautiful designs with colours and flowers. Children enjoyed the **authentic sweets**.

Christmas Celebrations

The birth of Jesus Christ, popularly celebrated as Christmas was celebrated with great pomp in the school. The students wore coloured clothes and decorated their classrooms. Christmas cake and sweets were distributed among students. The most significant part of the celebration was the Cribs made by the students of grade 4 to 6. It elevated the spirit of Christmas.

Among the celebrations marked with total student involvement and with great pomp and joy were the **Environment Day and Vanmahotsav. Independence Day and Republic Day** was celebrated with a colourful march past by the four house teams and a cultural programme where the national flag was unfurled. The students sang the national anthem and the flag song. The **Patriotic sentiments** were further enhanced with the Singing Competition on patriotic songs.

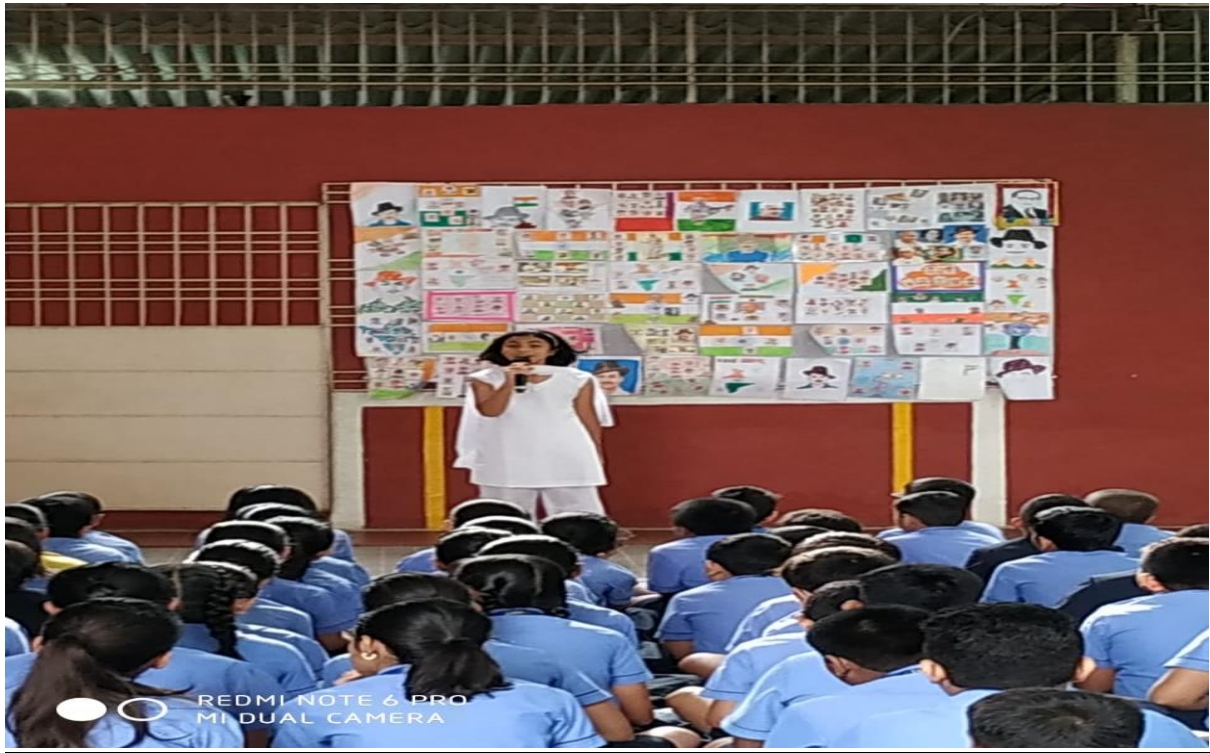

ENVIRONMENT DAY

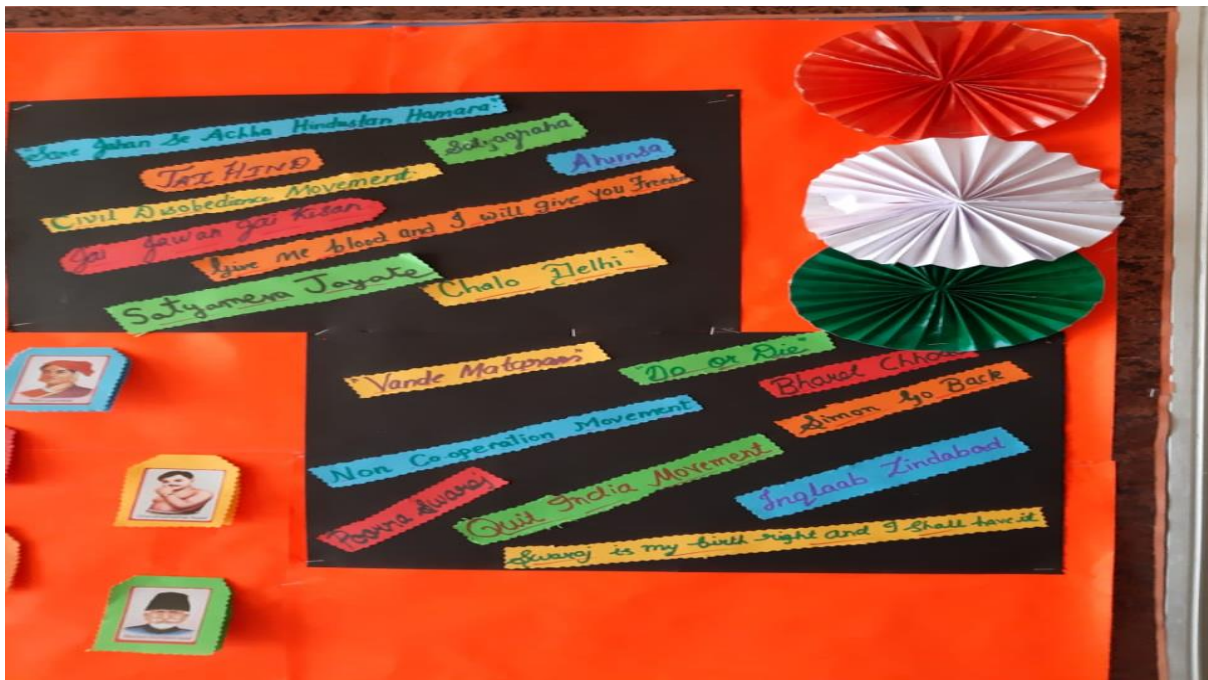

VANMAHOTSAV

INDEPENDENCE DAY

REPUBLIC DAY

Inclusion and Inclusive Education

Inclusive school develop confidence and imbibe values of sharing and participation. Inclusion in education is based on the belief that every child can learn and realise her full potential if provided equal opportunities to participate in school. A child must receive education in an environment that is the least restrictive and is most conducive to his/her needs.

At Isaac Newton Global School, we are dedicated to create an inclusive approach through **continuous efforts of the teachers, administrators, staff, parents and students**, which is important to establish a positive school culture. Inculcating empathy, respect and generosity amongst the students by treating them the way they want and need to be treated. We always **encourage full participation of stakeholders in all school activities** which helps in identifying and removing barriers. We are orienting all stakeholders for successful implementation of the programme by organizing **capacity building workshops, seminars for sensitizing teachers, students and orientation programs for parents**. Designing and implementing inclusive classroom curriculum and strategies to promote inclusive culture in an important practice of our school. Inclusive Education is the most effective and equitable of the various models of education for the overall growth and development of all children in both curricular and co-curricular domains.

School Safety initiative

1. Fire safety Awareness:

An emergency mock fire drills were conducted in school to train children on the evacuation process. These safety drills are conducted in the school on regular basis. Students are suppose to come out of the school premises on the sound of fire alarm, teachers will take their students to the designated safety area and then students are made aware of how to handle themselves in the event of a fire break-out. Students were given a first-hand experience on handling fire extinguishers.

2. Earthquake Drill:

In the event of an earthquake or imminent danger the staff and students need to be aware of the procedures using the drop command and put them into effect immediately. An emergency drill will be conducted once in the academic year for the same. While the signal is ongoing, the participants move away from windows, glass and unsecured objects immediately. Every participant performs **“DROP, COVER, HOLD”** under tables, desks or chairs until the “Shaking” signal comes to an end. Drop, Cover Hold.

3. CCTV Security Camera

Investment in surveillance camera systems by school management ensures parents and guardians that the general safety and security of children are being addressed during schools hours and at all after-school extracurricular activities and programs. **CCTV** cameras aid monitoring and preventing bullying amongst students. They help in **ensuring discipline and punctuality** amongst students. Prevent or track student thefts. Keep parents

mind at ease about **school security and environment**. This has proved to be a **great relief to parents** that they can see their wards when away from them. It also help school security personnel to take quick action about evacuating children, faculty and staff in case of emergencies related to fire or other potentially dangerous situations.

Social Welfare

Visit to Orphanage

INGGS tries to make its students **humane and empathetic towards the less privileged of the Society**. We feel happy that we could reach out to the children at the orphanage. We were overwhelmed by the generous response to our appeal for help that every student contributed in their own special way to arrange for a small program for these children and gift them with little gifts on the occasion of **Christmas- a season of sharing love and joy**.

Visit to police station:

A visit to a local police station was arranged for the students. During the visit the students are made aware of the functioning of the police station, the **role of police in society and the procedural aspects of complaint**. A discussion with the Senior Police Inspector and other officials in the Police Station help the students understand the procedure of filing a FIR, the difference between a cognizable and non-cognizable offenses and the role a cop performs in the process of investigation.

Education related to Environmental Issues:

Beach Cleanliness Drive

On the occasion of Gandhi Jayanti the students took part in the Beach Cleanliness Drive organized on **5th October 2019**, with the help of one of parent who is a member of an NGO. On an early bright morning the students along with the teachers and Member of the Trust and NGO marched to the **SURUCHI BEACH**. The students were provided with masks and gloves. The students gathered heaps of garbage which was further collected by the trucks for disposal. It was a beautiful experience as the students realized the importance of keeping the environment clean.

Rain Water Harvesting

Water scarcity is a posing problem all over. In order to curb this issue and conserve water- the **students were exposed to Rain Water Harvesting techniques**. Working of rain water harvesting was explained to students. The Management took the initiative of setting up **Rain Water Harvesting System in the school premises**. This was done to conserve and preserve rain water.

Protect the Environment Week

Environment plays an **important** role in healthy living and the existence of life on planet earth. It is critical to **protect** the **environment** so as to reduce the destruction of eco-systems caused by a myriad of anthropogenic activities. Air and water pollution, global warming, smog, acid rain, deforestation, wildfires are just few of the **environmental** issues that we are facing right now. **Environment** plays an **important** role in healthy living and the existence of life on planet earth. Towards this end we at **Isaac Newton Global School**, celebrated “**Protect the Environment week**” which includes activities like Vegetable garden inauguration by planting saplings, slogan making on protect the environment, display of herbs and spice plants, Wealth from waste competition etc.

Towards Sports and Games Championship

Sports and Games are a great way for students to develop skills, achieve goals, learn cooperation, and stay physically fit. Hence, we have allotted regular periods for games activities and mass P.T. exercises. Special coaching in basketball, football, volley ball, cricket, carom and chess is provided to the teams and Inter House competitions are organized in school.

ANNUAL SPORTS MEET was held on 18th January 2020 with great zeal, excitement and frolicsome atmosphere. Mr. Sagar (ACP) and Mr. Praveen Shetty (Mayor) was the chief guest at the inaugural ceremony held at **Chimaji Appa Ground**. The program started with impressive March Past of the students, coupled with some stirring marching music by the band. Once the event began, **the atmosphere was filled with cheering and tons of encouragement for the young athletes**. Various Athletic events were conducted house wise and **“Yellow House” emerged as team champions**. Theme based display of Fancy Drills, was a treat to the eyes.

Apart from the school Sports Day, many **students** participated in different events at Navghar Kala Krida organized in November and Vasai-Virar Kala Krida organized in December and turn out

victorious in many events. It was a proud moment for us to announce the names of a huge list of the winners.

Health Care for a Healthy Personality

Emotional Health: Counselling facility is provided to all the students on two days of the week by **our school counsellor, Mrs. Suzanne**. A meeting with the parents and students is arranged to solve the academic and emotional problems of the students and proper records are maintained for feedback.

Physical Health: Knowing that our senior most grades are moving towards adolescence (a phase that needs to be addressed well) a workshop was conducted for students of grades 5 and 6. The students were informed of various physical changes taking place and how to handle these hormonal changes positively. Along with this, a questionnaire session was conducted when children posed their queries which were handled effectively.

Good Touch Bad Touch Sessions: In today's world, it is imperative that parents talk to their children about the differences between right and wrong, appropriate and inappropriate. The concept of 'good touch and bad touch' is still a hush-hush topic in households and classrooms. Most parents have a difficult time addressing this topic, but this doesn't mean that the topic can be avoided as well. Children must be educated on the difference between acceptable touch i.e good touch and inappropriate touch i.e bad touch. For this we at INGS conducted session for students in order to maintain the good level of safety and security for each grade students so that every child to be aware of that their body belongs to them and they have a right to protect it.

Doctor on call: While every precaution is taken by the school to provide a safe and secured environment for the students, in the unfortunate eventuality of an accident or student falling ill, the first step will be to call a doctor. If the incident is minor, the school will administer the treatment. However, in case of any major incident the school may need to call a doctor. Parents will be informed of the incident as soon as possible and requested to collect their ward from school.

Science Exhibition

A science exhibition was held on **30th November, 2019** wherein students showcased their talents on creativity and innovation. The objective was not only to inculcate a scientific attitude and research-mindedness but also creating teaching aids. It involves students to participate in activities so as to understand the cognitive, affective and psychomotor aspects of the task. **The Science Exhibition is held as part of the National Science Day celebration** carried out at School of Education. Student-teachers participated in this activity and made models which are used as teaching aids later. They had chosen **topics from NCERT Curriculum**.

Students had made still models, working models, charts and posters to present their topics. Prof Shibu Nair took the initiative of encouraging the students to put up such a wonderful and enlightening exhibition. The parents appreciated the students. They asked students about the scientific concepts forming the foundation of the models. Students had prepared models like **digestive system, food chain, working of a wind mill, pollution was showcased along with the DC Motor based models**. Charts based on evolution of humans and biodiversity were presented well. Students were encouraged to **develop a scientific fervour and an attitude of research mindedness** so that they develop the qualities of analytical and critical thinking.

Parent Teacher Association

Parent Teacher Association, a school-based **organization** with a mission to make the school a better place for children to learn. PTA meetings are held at regular intervals 4 times in a session where presence of all members is mandatory. Parent Teachers Association (PTA) is a non - profit, non – political and non – sectarian organization constitute of school staff and parents which work to support the school in various manners. We at **Isaac Newton Global School**, encourages parent to be involved in the social and emotional development of their child. The **Parent-Teacher Association (PTA)** give Parent and students an opportunity to interact, provide feedback and exchange ideas with school management. **The aims and objectives of the association are to analyse various issues, make recommendations and effectively pursue the implementation** of decisions on matters affecting education/learning, to encourage mutual understanding, co-ordination and cooperation among parents, guardians, and teachers in the fulfilment of their common aim, the welfare of the students and school and to make for a healthy understanding of the education policies and programs of the school.

Open House Meet

Open House Meetings are held regularly to discuss the study habits of students with the parents and to sign the achievement records. The face-to-face meetings with families help build relationships, increase the visibility of the parent group, and develop a sense of community at school. Learning occurs most effectively within a **supportive school environment**. Open House meets are the **fruitful opportunity** for the teachers to gain parents support in the journey of learning. The first Open House of session 2019-20 in INGS was conducted on 27th July 2019 , second open house on 12th October 2019 and third open house on 4th January 2020 . During open house teachers explained the strength & area for improvement with individual students among parents. Parents were happy with the **innovative journey of teaching & learning**. The active cooperation of parents with the school is an essential prerequisite for the welfare of the students. They should encourage children to participate in all the activities and school functions. It was a wonderful moment to bench mark the progress, success & achievements.

Phonics

At Isaac Newton Global School, we include phonics, speech and drama program from Pre-school to Grade III in curriculum

Phonics instruction teaches children how to decode letters into their respective sounds, a skill that is **essential** for them to read unfamiliar words by themselves. Keep in mind that most words are in fact unfamiliar to early readers in print, even if they have spoken knowledge of the word. To see the children go from learning phonics to reading their first book with words, is a journey, which all children should be proud of and it is a cause for great celebration!!!! This Program helps to develop a strong foundation in English language learning by integrating phonics into the learning of reading, writing and spelling of words.

Speech and drama is an empowering way for children who enjoy acting and would like to be confident speakers and develop presentation skills. It helps children to learn effective and clear communication that will serve them throughout their life. ... Classes involve a range of **speaking** and performing exercises that focus on developing clear **speech** and confident communication. Speech & Drama teaches children to appreciate, understand and develop powerful vocal clarity, expression and projection. Children learn how different words, intonation, body language, movement and stance affect and reinforce spoken communication.

VISHAKHA & POCSO

To safeguard the interests of the learners, **Isaac Newton Global School** set up the **VISHAKHA** (To deal with complaints of sexual harassment of female employees of the School) & **POCSO** Committee (set up under the provisions of Prevention of Children from Sexual Offence Act 2012) on 19th September 2019.

A meeting to educate the staff of the **VISHAKA GUIDELINES COMMITTEE** was conducted in the school on 19th September 2019. Sexual harassment is a violation of fundamental rights of equality, right against sex based discrimination, right to work of women and right to life and dignity. It is here that Vishaka Committee (Prevention, Prohibition and Redressal) Act, 2013 plays an important role. The entire staff was made aware of Vishaka guidelines in detail and the intention behind forming the Committee. Pradnya Ma'am who is one of our Trust Member as well as an active member of the NGO, gave her inputs on the same and shared her experience on the do's and don'ts of the committee. She emphasized on the importance of the committee and took active part in forming the committee. The members of the Committee are as follows:

Chairperson	:	Mrs. Ursella Gonsalves (Principal)
Member of NGO	:	Mrs. Pradnya Kulkarni
Member of Trust	:	Mrs. Manpreet Kaur Sethi
Teacher representatives	:	Ms. Dona D'souza , Mrs. Akshata Kotian
Administrative representative	:	Mrs. Mitali Raut
Housekeeping representative	:	Mr. Jayesh Bhavar, Mrs. Rekha Garewal

POCSO COMMITTEE works towards safeguarding the learners from the challenges they face in their formative years at school. The Committee takes up age appropriate initiatives to create awareness about sexual

exploitation and to ensure that all learners are aware of their rights and responsibilities towards themselves. The Committee strives to ensure that all learners are treated with dignity and respected at all times. The committee will take immediate action on reported cases of misbehavior in the school premises on account of sexual offences. Gender Sensitivity Awareness programmes are conducted for learners of grades 4 and above.

OUR ACHIEVERS

We feel honoured that many students participated in various interschool competitions on different levels reaching upto International level as well. Olympiad exams, scholarship exams are a part of such examinations. Many students successfully bagged prizes and medals for their achievement.

Vote of Thanks

We are fortunate to have committed and energetic parents who have helped the school in so many different ways. As we build upon our many accomplishments across our campus, we thank you for your continued support to us at INGS. Your support truly energizes us, ensures our future success, and allows us to prepare our students for enriched lives. We remain thankful to all the parents for reposing their unparalleled trust in us which propels us to march ahead with greater commitment and enthusiasm. The school is very grateful for your generous efforts.

Thank you to all members of Council for volunteering their time to serve the school community. The school thanks you to facilitate an improved learning experience for our students, but also being thoughtful and sensitive to the needs of staff.

Our staff are a team of intelligent and hardworking people. It is a pleasure to work with such a dedicated staff with great energy and commitment to their work. We say a big thank you to them. They have played a huge part in what has made 2019 - 20 a predominantly progressive and satisfying year! Thank you to all our staff. It is a privilege to be part of a relationship of trust and collaboration that we share at this school.

With God's grace and guidance, and the untimely support of our parents and staff we hope to move forward with our priorities — innovation in our educational programmes, intellectual ambitions and globalization in education. May Almighty God bless each one of us and help us in translating our dreams into actions.
