

INTERNATIONAL EARTH DAY

Date: 13th June 2023 (Tuesday)

Timing: 9: 35 to 10:45 am

Report on Paper Bag Making Competition for Grade 3 and 4 and Mosaic Earth for Grade 1 and 2 held at Isaac Newton Global School on the account of 'International Earth Day'

Introduction:

The purpose of this report is to provide an overview of 'Paper Bag Making Competition' conducted for Grade 3 and 4 students and 'Mosaic Earth' activity organized for Grade 1 and 2 students of Isaac Newton Global School. These events aimed to promote environmental awareness, creativity, and sustainability among young learners. The report will outline the objectives, activities, outcomes, and recommendations for future events.

Objectives:

The main objectives of the 'Paper Bag Making Competition' and 'Mosaic Earth' activity were as follows:

- Foster environmental consciousness among students.
- Encourage the use of eco-friendly alternatives to plastic bags.
- Promote creativity and artistic expression.
- Develop teamwork and collaboration skills.
- Raise awareness about the importance of recycling and upcycling.

3. Paper Bag Making Competition (Grade 3 and 4):

Activities:

The 'Paper Bag Making Competition' involved students from Grade 3 and 4. Students involved themselves in designing and creating their own paper bags using recycled materials and non-toxic art supplies. The students worked individually to complete their projects within a specified time-frame.

Outcomes:

The competition generated impressive results, with students showcasing their creativity and innovation. The paper bags created were not only aesthetically appealing but also functional and environmentally friendly. The event helped students understand the importance of reducing plastic waste and the role they can play in preserving the environment. It also provided an opportunity for students to develop their artistic skills and gain confidence in their abilities.

4. Mosaic Earth (Grade 1 and 2):

Activities:

'Mosaic Earth' was an engaging activity designed for Grade 1 and 2 students. The theme of the collages centred around the Earth and its natural resources. Students were encouraged to express their thoughts and feelings about the environment through their artwork.

Outcomes:

Mosaic Earth allowed young students to explore their creativity while learning about the importance of protecting our planet. The activity stimulated their imaginations and artistic abilities, fostering a sense of responsibility towards nature. The collages displayed during the event were vibrant and varied, showcasing the students' unique perspectives on environmental preservation. By engaging in this activity, students developed an early understanding of the need for sustainable practices and recycling.

Conclusion:

The 'Paper Bag Making Competition' for Grade 3 and 4 students and the 'Mosaic Earth' activity for Grade 1 and 2 students successfully promoted environmental awareness, creativity, and teamwork. These events encouraged students to think critically about the

impact of their actions on the environment while providing a platform for artistic expression. By engaging in such activities at an early age, students are more likely to develop lifelong habits of sustainability and become responsible stewards of the Earth.

Overall, 'Paper Bag Making Competition' and 'Mosaic Earth' activity were a resounding success, leaving a positive impact on both the students and the environment. By continuing to organize such events, we can inspire and educate future generations to protect and preserve our planet.
