**Venue: Classroom**

**Conducted by: Social Science Team**

***"Earth provides enough to satisfy every man's needs, but not every man's greed."***

***- Mahatma Gandhi***

Isaac Newton Global School organized a slogan writing competition on the theme "Solution to Plastic Pollution" for grade 5 to 9. The aim of the competition was to raise awareness about the impact of plastic pollution on the environment and to encourage students to come up with creative solutions.

The competition saw enthusiastic participation from students from all classes. The event started with a briefing on the significance of World Environment Day and the importance of protecting the environment. The students were then given 1 hour to come up with a slogan on the given topic. They were provided with an A4 size sheet and they had to express their slogan on the sheet in a creative way.

The slogans submitted by the students were creative, informative, and thought-provoking. Some of the slogans were:

- Don't be drastic, Say no to plastic.
- Wipe out plastic from the environment before it wipes us out.
- Green revolution is the solution to plastic pollution.
- If you cannot reuse or recycle, just refuse it.
- Say no to plastic, be fantastic.
- Plastics give a helping hand but it is polluting our land.

The competition saw enthusiastic participation from students from different classes. The submissions were judged based on their creativity, originality, relevance to the theme, impact and presentation. The slogans perfectly captured the essence of the theme, emphasizing on the importance of reducing the usage of plastic in our daily lives. The judges had a tough time selecting the winners as all the slogans were impressive and effective.

The competition was a great success, with many students expressing their newfound awareness regarding the need to reduce the usage of

plastic. The event served as a stepping stone towards a more sustainable future, where each one of us can take small yet significant steps towards reducing plastic pollution.

Overall, the competition was a great way to celebrate World Environment Day and promote the importance of taking care of our environment. We hope to see more such initiatives in the future that will encourage us to become mindful citizens committed to preserving the environment.
