INTRODUCTION

Our Philosophy

Issac Newton Global School (INGS) is committed to provide much more than mere transmission and skills acquired through compartmentalized syllabi. True education begins with knowing and understanding the child. At INGS we focus on overall development of the child i.e. Body, mind and soul, that helps create compassionate world citizens.

Social environment plays a vital role in moulding child's future. Therefore, the environment at INGS is defined by creating a culture that permits learner to express him / herself and provide stimuli for aesthetic development of sense to focus on extra curricular activities along the intellect. A positive environment helps to build enduring relationship with themselves and the world around them.

INGS recognize each child as an individual being with his / her own special set of strengths and talents. This process begins with knowing the worth of others and one's own limitless abilities to learn and to achieve and not with standardized achievement and comparison with others.

This academic year amidst the covid-19 pandemic has been quite challenging with an exciting mixture of learning, achievements and celebrations.

VISION

“Our vision is to establish a school that nurtures a learning culture which believes in and breathes change through education”

Isaac Newton Global School is a tribute to the English natural philosopher, generally regarded as the most original and influential theorist in the history of science: Sir Isaac Newton.

Infinite possibilities can be created through change in education. Positive development of children is possible through discovery of self, of the life cycle of a honey bee, of the law of motion or the speed and precision with which communication system is established.

Learning for children is a discovery of the self and a yearning to share that discovery with peers, teachers and parents. Our aspiration as a school is to provide much more than mere syllabi and examination oriented education. It is to help children become responsible citizens of the global community.

Established in 2014, Isaac Newton Global School has been preparing our children for the future. We focus on supporting all students to reach their full potential academically, socially and emotionally.

With a clear vision and purpose, we focus on excellence in teaching and learning to ensure that the students develop their academic skills and to fulfill that our school has taken different initiatives throughout the year.

MISSION & MOTTO

To create a love for learning and make our children responsible citizens for tomorrow.

EXPLORE the world of infinite opportunities.

ENDEAVOUR to succeed.

EMPOWER thyself

Through our motto 'Explore, Endeavour, Empower', we aim to provide the best possible education for each student, ensuring they develop a broad range of skills to enable them to take responsibility for their own learning, and to adapt to a changing world

School Assembly

School being the foundation of a student's life, assemblies only helps them gather a lot of energy to do well and be good in their day. The program of the assemblies has the potential to nurture and maintain a positive, healthy school culture which binds everyone together.

At INGS, well planned assemblies are conducted class wise clarifying school activities and programmes, focusing on important days. Every child is given the opportunity and the platform to display their talent and present themselves as individuals. Guided by their mentors, the assembly includes, poetry recitation, speech, songs, individual experiences etc. Also motivating students for winning extracurricular activities & sports.

Purposes of a school assembly include the following:

- i. To develop a feeling of affiliation and unity among students.**
- ii. To acquaint students with the school programme more clearly.**
- iii. To develop in students a sense of identity with the school.**
- iv. To enable students to share their experiences, stories, anecdotes with others.**
- v. To provide them training in good social behavior desired in public life.**
- vi. To motivate students by positive reinforcement in the form of praise or rewards awarded in public.**
- vii. To celebrate national festivals, Independence Day, Republic day, birth days of great leaders and so on. These leaders could be political leaders, scientists, poets, writers and so on.**
- viii. To facilitate moral and religious development of students.**
- ix. To facilitate national integration and secularism through all-religion prayer meetings among students.**

SPECIAL ASSEMBLIES (2021-2022)

1. VALUE EDUCATION

Date: 15/04/2021

Grade: 8 & 7 – by Miss Delilah Nunes.

Grade: 6A and 6B – by Miss Snovia D'Silva

Grade: 5A and 5B – by Miss Snovia D'Silva

Topic covered: Resilience, motivation, positive thoughts, hard work, focusing on goals in our lives and achieving them even in adverse situations.

Video about the motivating success story of Miss Bhakti Sharma and what open water swimming taught her about resilience.

Short Narration of the video shown:

Bhakti Sharma speaks about the challenges faced by her, negative thoughts and how she conquered her negative thoughts and succeeded in her life. Her aim in life was to stay focused and achieve her goal, however challenging and adverse the situations were, she kept motivating herself till she achieved what she wanted to. So, don't give up, keep trying, invest in yourself, be optimistic, focus on your goals and work hard towards achieving those goals.

Grade: 4- by Miss Ankita Vaz
Grade 3A and 3B- by Miss Priya Paul

Topic covered: Sportsmanship

Short Narration of the video shown:

Sportsmanship is a valued quality to possess. It teaches us the values that help us succeed in life with grace, self-respect not with ourselves but also others. Sports is not just about winning but it's about being empathetic, kind, supportive and generous towards others.

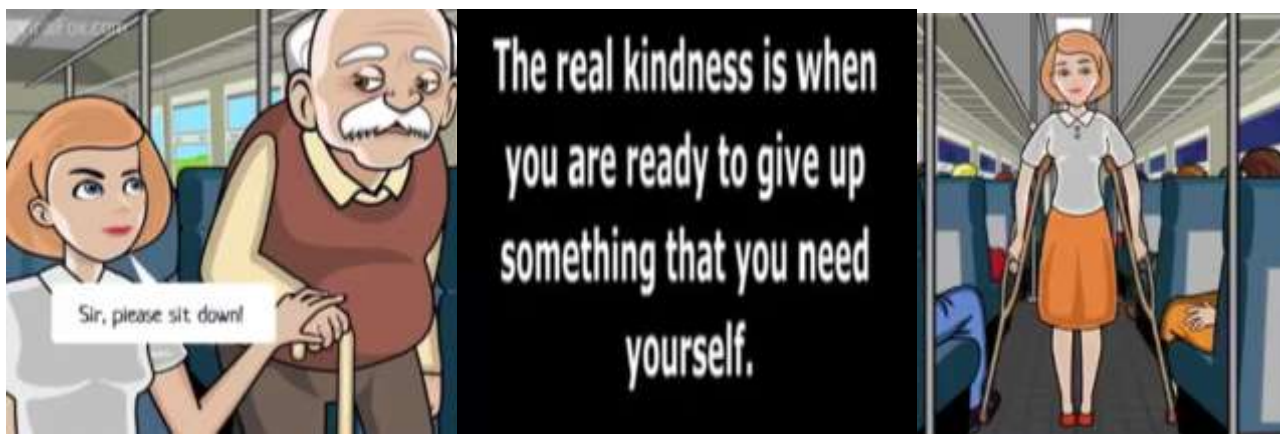

The video portrays the qualities that turn today's top athletes into role models that inspire many people. Each story showcases a different athlete and explores one key character trait that has distinguishes them from the rest. They are the shining examples of what is best in sport and in life. These men and women stand for something more important than their performance, and because of it, not only are they game-changers, they're also world-changers. And therefore it is very important that we too imbibe these qualities within us and be fair,

generous, respectful and supportive towards our opponents while engaging in any sports activity.

Grade: 2 - A, B, C & D – by Miss Annie Mathew

Grade: 1 - A, B, C & D – by Miss Dona D'Souza

Topic covered: An old man and a disabled girl

Short Narration of the video shown:

A young girl along with many other passengers were travelling in a train. In the same train, an old man entered who had a ticket but without a seat. The young girl had a seat reserved and was kind enough to give away her seat to the old man. No other passenger took such efforts. The girl didn't mind standing throughout her journey. The old man happily accepted the seat and also enquired about the girl's destination. He told her to inform him if she feels tired while standing. After some time a ticket collector enters and asks everyone to show their tickets. He found out that the girl had offered her seat to the old man. He was impressed by her kindness and offers her an empty seat in the front car. She picks up her crutches and follows the ticket collector. Everyone is shocked to find out that the girl was actually in need of the seat but still have it away without any expectation. So, the moral of the story is: Kindness will always come back.

Grade: 6A and 6B – by Miss Delilah Nunes

Grade: 5A and 5B – by Miss Snovia D’Silva

Topic: Kindness

A video on - How a simple act of kindness creates an Endless Ripple! was shown.

Short Narration of the video shown:

The video touched upon the value of kindness and even further explained how kindness is contiguous and creates ripples of positivity in the society. When people experience kindness, they are more likely to engage in behaviors that benefit other people and society at large. Just as an eternal wave is formed in water when an object is dropped in it, in the same manner a single noble act of kindness, automatically gets pursued from one person to other continuously. Students shared their views on how important it is to be kind towards others and that everyone deserves to be treated with kindness. The session ended by the thought for the day – Be Kind and Kindness Will Follow You.

Grade: 4 A and B – by Miss Priya Paul

Topic: Opportunity to help others. Small acts of generosity will be returned to you ten-fold. So be generous, and you’ll get what you desire in the end.

A great Oscar winner animated short story about opportunity and helping each other! was shown.

Like most dogs — the dog in the story wants to please her owner. This means guarding the fishing bait worms from the heron. The dog wants to protect the worms. Heron wants to take the worms. Their desires are in direct opposition, making them 'opponents'. The heron doesn't just want the worms. She needs the worms, and they're not for herself. She is not being selfish after all. She's not simply stealing worms in order to have fun. This is a life and death situation for her chicks, who can't swallow big fish. They need smaller food or they'll go hungry. After spotting the heron is only trying to feed its hungry and fussy chicks, Dog comes around gives away the whole pot of worms. And in return to this kind act, the heron then reciprocates the gesture of kindness by giving fish in return.

Grade: 3 A and B – by Miss Priya Paul

Grade: 2 A, B, C & D – by Miss Annie Mathew

Grade: 1 A, B, C & D – by Miss Dona D'souza

Topic: Sharing is caring

Animated video on sharing is caring was shown.

The animated story is about Sally the squirrel and Charlie the chipmunk. Sally had a cozy little home on an oak tree. Charlie knocked on Sally's door and asked for few nuts to finish making his acorn stew. Although Sally the squirrel had plenty of nuts, he didn't share them with Charlie the chipmunk. Charlie got disappointed and made some dandelion tea and stew. The next day, Charlie went back to Sally's house and offered some stew but Sally was surprised with

Charlie's kindness and generosity. That day Sally learnt a lesson from Charlie that sharing is not just giving when someone gives to you but sharing is to show how much you care no matter what others do. The two of them became best friends and Sally was never selfish again.

International Tiger Day is held annually on 29th July to give worldwide attention to the reservation of tigers. It is both an awareness day and a celebration. The combination of grace, strength, agility and enormous power has earned the Tiger his pride of place as the National Animal of India.

A PPT based on International Tiger Day was displayed to students. It helped them gain an insight on the reasons behind declining population of tigers and methods to protect them. Some amazing habitats of tigers were also discussed. A video related to Project Tiger was shown which depicted the aims and objectives of the Project Tiger. The students actively participated in the discussion.

Famous Habitats of Tigers in India

Bandhavgarh National Park, Madhya Pradesh

Periyar Tiger Reserve, Kerala

Jim Corbett National Park, Uttarakhand

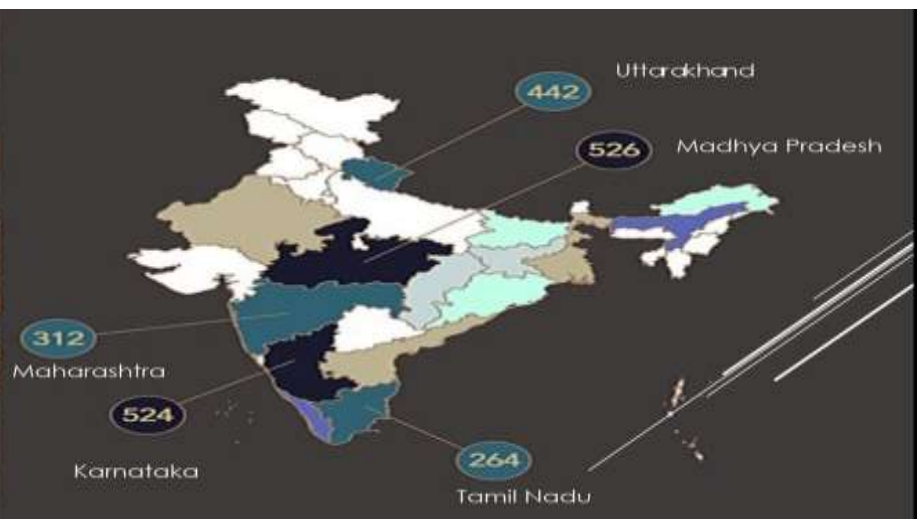

Nagarhole Tiger Reserve, Karnataka

Ranthambore National Park, Rajasthan

Tadoba Andhari National Park, Maharashtra

How To Protect Our Tigers

Habitat Protection - The main reason for the decline in population of Indian Tigers is the lack of forests and proper prey for their survival. Efforts should be taken to see that the sanctuaries and forests where tigers are usually found are in abundance.

Awareness - Creating awareness in ways of projects, programs can strongly support the cause to save our Tigers. Organizing camps and workshops to spread the knowledge about Tiger conservation.

Prevention of Poaching (illegal shooting) - Making sure that the habitats where tigers and deers (tiger's prey) survive are free from poachers and hunters to avoid the drastic decrease in the numbers.

Opportunities for Wildlife Activists & Conservationists - Creating sufficient number of opportunities for young people to take up a career in wildlife is also very conducive method of saving the animals.

Date: 04/09/2021

Teachers' Day is celebrated annually on September 5 to mark the birthday of the country's former President, scholar, philosopher and Bharat Ratna awardee, Dr Sarvepalli Radhakrishnan, who was born on this day in 1888.

Teachers' day was celebrated in Issac Newton Global school with full enthusiasm. All teachers were invited in the school premises at 10 am for celebrating the special day with joy and togetherness. All the teachers were dressed up in their best outfit which made the day even more special and beautiful. At 11.00 am all the teachers alongwith non-teaching staff gathered in the assembly hall where the program was to be conducted.

The celebration started with a prayer by Ms. Tanvi Wadke. The program was hosted by Mrs. Tabassum Surty. All the trustees arrived around 11.30 am to the program memorable and remarkable. Trustees were welcomed by the teachers by presenting flower bouquets as a token of love and respect. Trustees addressed the teachers with a motivational speech and shared their experiences as a teacher which enlightened all the dynamic teachers present in the hall. Spot games were organised for teachers where they won goodies on winning. All the teachers later participated in the game 'Bomb in the city'. The program was filled with fun, energy, happiness and gratitude of being a teacher. Lunch was organised for all the staff members. The Program ended by giving teachers a return gift for their endless efforts towards teaching and making the school reach milestones.

Teachers' Day was celebrated virtually with students with excitement and enthusiasm. Students from different grades paid a tribute to their class teacher and subject teachers by presenting poems and greeting cards. Students also made the day special and memorable for their teachers by dedicating songs and projecting magic tricks and posters.

Every duty is holy and devotion to duty is the highest form of the worship of God. When you are doing any work, do not think of anything beyond. Do it as worship and devote your whole life to it for the time being – words of Swami Vivekananda.

A PowerPoint presentation was shown to students which emphasized on a proverb given by Mahatma Gandhi 'WORK IS WORSHIP'.

The value of work without any expectation of its rewards was discussed. Students shared their views about enjoying their work that they perform in day to day life. It was overall an interactive and informative session.

LINES TO REMEMBER

Work is considered to be the greatest form of worship as it brings confidence and salvation in life.

Hard work with honesty, integrity and full dedication makes us achieve goals in life.

When we love our work, it drives in satisfaction & happiness.

Every challenge of life can be fought by hard work and perseverance.

Work done with happy, creative and cheerful attitude results in positive outcomes.

'WORK IS WORSHIP'

was said by Mahatma Gandhi because he wanted to instil the importance of hard work in his countrymen and how it produces great results.

IT IS THE QUALITY OF OUR WORK WHICH WILL PLEASE GOD AND NOT THE QUANTITY

People who love
their work
perform real
worship to God

Even the tiniest work is a flower placed at the feet of God.

DIWALI CELEBRATION

Date: 29/10/2021

Diwali is a festival commemorated to mark joy, victory and harmony. Diwali is rightly called the festival of light as the whole world brightens up on this day.

INGS celebrated Diwali virtually with the children of all grades in a very unique way. Students had participated in various activities and performed their best to mark the program as a memorable one. Video Clips of the students' performance was collaged to make the final Diwali video which was showcased to students on Microsoft Teams.

The celebration commenced with a prayer followed by the lighting of lamp.

On the occasion of Diwali, students participated in numerous activities like skit, singing, dancing, reciting a poem and presenting a speech. To make the program flow interesting and fun, students also hosted the event by appreciating the previous performance and inviting the following performers.

The Skit was based on a story of Soham, a boy who is unable to celebrate Diwali due to poor financial condition caused in pandemic situation. He prefers to be sad and quiet when his classmates are discussing about their Diwali plans.

Soham feels surprised and elated when his friends visit his place to celebrate diwali with him. They together share the message of Diwali to bring happiness, togetherness and joy in this festival of lights.

Students of grade 8 performed a dance with full energy and enthusiasm and made all the viewers tap their feet and enjoy the performance to the core.

Some students also showcased their singing talent and made the ambience melodious leaving behind a soothing memory.

Some students recited a poem and delivered a speech emphasizing on ways to celebrate Diwali in an eco-friendly way and shared their innovative ideas to make the festival memorable.

Some more amazing dance and singing performances were presented by talented students.

The program ended with warm Diwali wishes by teachers, principal and trustees.

CHILDREN'S DAY

Date: 15/11/2021

Children's day in INGS was celebrated with high spirit and enthusiasm. The program was organized in a pattern to make the children enjoy, cherish and remember the celebration. In order to make children feel special and loved, the teachers of INGS performed their best in various activities. Teachers and non-teaching staff presented a talent show dedicated to all the lovely children. The performances that marked the event were Dance, Fashion Show, Song, Poem and Yoga.

Students enjoyed the surprise video of children's day and were blissful witnessing the teachers in their new avatar.
